WHO WE ARE

Professional expertise aligned with real-world business needs

Based in Dubai, Nevada Training & Consultancy delivers professional learning and advisory services to individuals and organizations, both in person and online. Its earlier company profiles describe operations dating back to 2014 and an expanding network across the Gulf and beyond.

Our portfolio combines open professional programmes, tailored corporate training and specialist consultancy in management, human resources, quality, governance and technical fields. We focus on aligning practical knowledge with the distinctive objectives of each client.

Vision

To be a preferred partner for human-capital development and institutional improvement through high-quality learning and consulting solutions.

Mission

To deliver practical, responsive learning and development experiences that strengthen professional capabilities and help organizations meet their evolving challenges.

Values

Quality | Integrity | Innovation |
Customization | Long-term
Partnership | Continuous
Improvement

WHAT WE DO

An integrated portfolio of professional and institutional services

01

Professional training

Professional programmes, specialized courses and workshops across management, healthcare, technology, legal studies and more.

02

Corporate learning

Training designed for employees and leaders around job roles, skill gaps and institutional development priorities.

03

Consultancy

Advisory support for excellence, quality, strategy, people management, performance and process improvement.

04

Organizational development

Assistance with organizational structures, administrative systems, operational effectiveness and service quality.

TRAINING SECTORS

Multidisciplinary pathways for professionals and organizations

Leadership & management

Executive leadership, planning, projects, team building and change management.

Human resources

Recruitment, talent development, performance review and workforce planning.

Finance & law

Financial management, audit, governance, compliance and legal affairs.

Technology & AI

Information technology, digital capabilities and applied artificial intelligence.

Health, safety & quality

Hospital management, occupational safety, public health and quality frameworks.

Engineering & energy

Engineering, petroleum, energy and sector-specific technical capabilities.

Customer & communication

Public relations, sales, marketing, customer experience and corporate communication.

Public administration

Government excellence, public services, governance and performance management.

PROFESSIONAL LEARNING & ADVISORY

Multiple sectors. One professional standard

HOW WE DELIVER

A learning experience designed around audience and outcomes

A learning experience designed around audience and outcomes

Building capabilities. Advancing institutions.

01

Needs analysis

Identify audiences, learning objectives and capability gaps.

02

Programme design

Develop specialist content and sector-relevant learning activities.

03

Flexible delivery

Offer onsite, classroom or online formats as appropriate.

04

Impact review

Assess learning, gather feedback and recommend next steps.

CONSULTANCY & INSTITUTIONAL DEVELOPMENT

Connected disciplines for sustainable organizational progress

Strategy & excellence

Strategic planning, process improvement, performance indicators and service quality.

Quality & standards

Management-system awareness, quality, safety, risk and business-continuity frameworks.

Human capital

Organization design, job descriptions, competencies, workforce plans and performance.

Public-sector development

Government performance, administrative capabilities and institutional service improvement.

PROFESSIONAL LEARNING & ADVISORY

**Advice shaped around
institutional needs**

SOLUTIONS FOR INSTITUTIONS AND GOVERNMENT

From skills development to stronger operating models

Nevada's previous company profiles cover government training, administrative development and institutional services. Focus areas include capability building, leadership development, quality, accountability, transparency and customer experience.

Consultancy work can also address workforce planning, job architecture, performance management and continuous improvement, tailored to each client's operational context.

Standards and management systems mentioned in the source profiles

Quality ISO 9001 | Complaints ISO 10002 | Environment ISO 14001 | Occupational Health & Safety ISO 45001 | Risk ISO 31000 | Business Continuity ISO 22301 | Information Security ISO/IEC 27001. These represent subject areas for training and consultancy, not a claim that Nevada holds the corresponding certifications.

PROFESSIONAL LEARNING & ADVISORY

Capacity building and continual improvement

OUR PARTNERSHIP NETWORK

Academic and professional relationships supporting specialization

Academic and professional relationships supporting specialization

Universiti Malaya · UTM · IAG · EIHRM · EHSA · AAI · FFA

Academic and industry partnerships are central to Nevada's approach, opening opportunities for subject expertise, professional learning and specialist programmes. The particular form of collaboration depends on each institutional arrangement.

Nevada has confirmed that the relationships presented in its earlier profiles remain in place and has added Universiti Malaya and UTM to this network. Each partner therefore receives substantive coverage rather than a logo-only mention.
